ENVIRONMENTAL  
PROBES WITH PAD

PRODUCT FAMILY 50SC10

Enviroment probe with PTC sensor, in Teflon cable, ABS 52x50x35,5 mm capsule. Suitable for temperature sensing in laboratory equipment and machinery, in refrigeration and air conditioning applications and in heating applications.

TECHNICAL DATA

|                            |                                                                        |
|----------------------------|------------------------------------------------------------------------|
| TEMPERATURE RANGE          | (-20 +70)°C                                                            |
| MODEL                      | Environment                                                            |
| SENSOR                     | PTC                                                                    |
| CAPSULE                    | ABS 52x50x35,5 mm                                                      |
| CABLE                      | Teflon                                                                 |
| TERMINITIONS               | Tin-plated, tips, connectors (other terminations available on request) |
| RESPONSE TIME              | 10 s in non-static liquid at 63.2% (depends on configuration)          |
| IDENTIFICATION             | Laser on cable, label (customizable)                                   |
| DECLARATIONS OF CONFORMITY | CE MARKING, CONFLICT MINERALS, REACH, REACH, ROHS                      |
